DESCRIPTION

Model 0031 is a medium-profile, medium-width single-point load cell designed for direct mounting in weighing scales/platforms. Leveraging vLite™ technology, it is constructed from aviation-grade metal, with a hollow beam.

Its compact physical size and light weight, combined with high accuracy and low cost, make this load cell ideally suited for stocking, bench and counting scales.

Supplied as standard in anodized aluminum, this high-accuracy load cell is NTEP approved and OIML pending approval.

A proprietary triple-redundant humidity-resistant protective construction assures long-term stability over a wide range of environmental conditions.
